FINANCING SOLUTION

FINANCING BY ELEVION

Full capex financed by us (contracting model):

- We become the energy supplier under a long-term contracting agreement.
- No upfront investment required.

FINANCING BY PARTNER

Self-financing (Customer's own resources):

- The customer retains full ownership of the energy system.
- Financing can be arranged through internal funds or external bank loans.

FINANCING BY ELEVION & PARTNER

Co-financing (Bank and us):

- Shared investment reduces the financial burden on the customer.
- Combines competitive bank financing with our expertise and support.

+ FUNDING, GRANTS AND SUBSIDIES

"Our experts will help to evaluate the eligibility of your project for additional funding at both the national and European levels and provide support throughout the application process for such funds."

ORDINARY MAINTENANCE

- Heavy machinery operation and maintenance (CHP, boilers, Heat Pumps)
- PV and Battery operation and maintenance
- Technical Facility Management

PERFORMANCE IMPROVEMENT

- SW for operation control and Energy Management Systems for Industry and Real Estate
- Overhauls, Long-term operation and maintenance, Performance analysis

"We are dedicated to being your long-term partner, ensuring that technology operates seamlessly while consistently delivering value and efficiency to your operations."

WHY US

- 1. Expertise & Guaranteed Performance** - Our technical know-how ensures that even the most complex decarbonization processes are seamlessly implemented, delivering guaranteed performance and savings.
- 2. End-to-End Solutions with No Upfront Investment** - Elevion Group brings together highly specialized companies to provide comprehensive decarbonization and energy efficiency solutions with no upfront investment, enabling immediate cost savings.
- 3. Protection from Energy Price Volatility** - With a strong presence across multiple EU countries, we help international customers mitigate risks and shield their business from energy price fluctuations, ensuring long-term stability.
- 4. Regulatory Compliance & Competitive Edge** - Our 80+ companies offer industry-specific expertise, ensuring full regulatory compliance, ESG alignment, and helping businesses gain a competitive advantage in their sector.
- 5. Reliable, Future-Proof Partner** - As a subsidiary of CEZ Group, one of Europe's TOP 10 energy companies, Elevion Group provides future-proof solutions and long-term reliability, making us a trusted partner for your energy transition.
